

You are Kerry Knudson from Sioux Falls. Try to convince Dennis Rohr from Mandan that it is important to wear a mask.

Hello Mr. Dennis Rohr,

I'm Kerry Knudson from Sioux Falls and I write to you about the topic wearing masks because I had read that you aren't wearing mask.

I think it's important to wear them because a lot of people have this disease and in the state where you *are* living *there* is the highest rate of known cases. So many people die because they *have* got Corona. I read that the guitar player and the piano player in your *band* got the virus and that is a symbol for me to wear a mask when I'm outside my house *if I were you*.

Kerry Knudson

Why do you think so many articles about COVID-19 (like this one) are written in the newspapers?

I think there are so many articles in the newspaper about this topic because so many people think that COVID-19 is only a normal disease and it's not dangerous. The writer shows that the disease isn't so harmless and that people die on *from* it. They will show how much *many* people know *(other)* people who had COVID-19 and they will show that everyone can become sick on *through* the virus.

(leider nur 71 Worte 😊)

Insgesamt sehr schön geschrieben!

Liebe Grüße Oma 😊❤️
