

Zusammenfassung – „Worth a Dragon“

The human Haz and the dragon queen **Haz'Drazen** made a pact long ago:

Both sides won land for their people

~~We give them enough land for their people and they~~ **to** keep ~~our~~ **their** ties fresh forever **the humans gave families to the dragons to serve them**

and some dragons were chosen to go to the humans to safe **serve** them.

The dragons have a rider but when **their** rides die the dragon side **dies** too.

After two of three dragons died **Ramariri, the Gold**, was the only dragon in the city.

A human came to me **him** and says **said** he need**ed** my **his** help to bring the princess and him in safe **to safety** because there w**h**ere a war. On the

first stop † **he** feel **felt** that my **his** rider is **had** died too that means it **was** only a question of the time when † **was going to** die, **too**, but † **he** would bring the little princess and the human in safe **to safety**.

The human died, too, because he **had** a big wound and lost a lot of blood.

So † **Ramariri** decided **to** try speaking to her **the little princess** like the purple dragons **speak to their riders** and it work**ed**. On the way to other

humans where † **he could** ean leave her we **they** saw the blue dragons and they **were** beautiful. The little girls were awesome. → ???

We **They** landed and † **he** died slowly. The little girl **had** looked for help and ~~find~~ **found** other people. But it was too late **for him**.

Hallo Enkelkind,

wir sprechen am Mittwochnachmittag darüber!

Liebe Grüße

Oma
